An earlier decision still lets detainees with deportation orders petition for release after three months if their deportation will be further delayed. More research is needed to adequately account for the contributors to these declining rates of death in immigration detention settings. Deportation officers and contract analysts splay these databases from Cubic. The Board of Immigration Appeals agreed. The two deaths categorized as overdose included one each methamphetamine and cocaine intoxication. In the US, this period is 90 days. In terms of the causes of death, one striking aspect is the lack of death from a Department records show at least two-thirds of the people had spent some time in custody.
