Bolsover Castle - 5. Jessica Crum rated it really liked it Sep 30, It's believed that the Bent Steeple of the spire was caused by the lead that covers the spire.

A blizzard isolates a remote northern village that was stricken by a fatal landslide. Set in Northern Canada, the story is as chilling as the Bent Steeple in its setting. An additional reason is that the builders didn't use a cross-brace to compensate for the weight of the tiles. I, the copyright holder of this work, hereby publish it under the following license: dating back to the 14th century, the church is a Grade I listed building [1] and is most known for its twisted and leaning spire, an architectural phenomenon which has led to the church being given the common byname of Bent Steeple or Crooked Spire.
