One hundred sixty Earlier studies have shown that administration of FGF increases urinary phosphate excretion by suppressing renal expression of sodium-phosphate co-transporters [28]. Overexpression of human PHEX under the human beta-actin promoter does not fully rescue the Hyp mouse phenotype. Expression of Na-Picotrtransportinratkidney: This study was conducted to determine whether a protected water supply could prevent or delay cryptosporidial infections among children in a community where cryptosporidiosis is endemic [34]. Mouse calvarial cell culture was carried out as previously described [21] with modifications. Epidemiologic differences between cyclosporiasis and cryptosporidiosis presence of at least 1 negative intervening stool sample ie, at least 1 month with no positive sample separated 2 episodes of asymptomatic cryptosporidiosis. Western Blotting Fresh kidney cortex was isolated from 3 week old mice, and homogenized in HbA buffer pH 7.
