Research has indicated that involving all levels of staff in leadership and planning efforts can help change the climate and culture of child welfare agencies. Limited analysis has addressed the relationship between need and use, the role of the many different influences on service utilization, and the efficacy of actual interventions and their outcomes. The major focus was on the privatization of the case management functions—how it affects placement, placement stability, decision making, court efforts, staffing, and all of the processes needed to meet the needs of abused and neglected children in the child welfare system ASPE, b.

This increase in attention to child well-being can also be linked to recent trends. The Future of Children: To use the metaphor of a service system functioning as a gateway into another service system, the gateway into mental health care provided by the child welfare system clearly does not swing both ways. When Kansas privatized foster care, family preservation, and adoption in the mids, for example, the public agency caseworkers did not choose to move to the private agency, and there have been similar experiences in other states and localities ASPE, b ; Flower et al.

As described by Sanders at a workshop held for this study and elucidated by the example, children placed in a group care setting may transfer to a family setting if the reasons for placement in group care are no longer material to further progress. The Fourteenth Amendment to the United States Constitution says that a state may not make a law that abridges "
