Requirements related to the behavior and performance of faculty members in effective teaching Teachers have to focus on mental differences, interest, and sense of belonging, emotional stability, practical experience and scientific level of students in training. The students are more likely to see themselves as consumers and have increasingly high expectations regarding teaching and learning.

This category emerged from some codes, including having lesson plan; using a  
Assessing Students' Written Work Marking Essays and Reports By Catherine Haines This practical and realistic book is designed to help practitioners who wish to improve their effectiveness in assessing a large and a diverse range of students. In the present study, it was illustrated that a good teaching method helps the students to question their preconceptions, and motivates them to learn, by putting them in a situation in which they come to see themselves as the authors of answers and the agents of responsibility for change.  
Developing Your Teaching Ideas, Insight and Action By Peter Kahn For new as well as experienced teachers, this book provides a volume theoretical principles.
