Disconfirming evidence can lead to cognitive dissonance on the part of these individuals, and lead them to deliberately or unconsciously attempt to resolve dissonance by ignoring, discounting or even destroying the evidence. Of course, as horrendous as the false accusation was, organizations must take seriously every allegation of abusive behavior by its volunteers or employees and request an investigation by the appropriate child protection agency. Child Sexual Abuse Prevention, training for adults and youth serving organizations on how to predict, prevent and react to sexual abuse.

If unions fought for prevention training they would have fewer issues to address in the Courtroom. Of the allegations determined to be false, only a small portion originated with the child, the studies showed; most false allegations originated with an adult bringing the accusations on behalf of a child, and of those, a large majority occurred in the context of divorce and child-custody battles.

However, when very young children are insistently asked leading questions in this case, the allegations are spread by rumour, which, according to Rosnow serves to explain an otherwise unexplained event that generates uncertainty and personal anxiety. A Survey of Child-Serving Professionals.
